

both show signs of decided worry. Dr. Crippen is booked as a merchant. The woman, disguised as a boy, is booked as a student.

"This is the first account given to any newspaper."

For more than a week, ever since the Montrose's captain failed to the woman, disguised as a boy, is booked as a student.

"I saw nothing amiss when I first went through the house," he said, "and although I searched each room carefully twice more with the same result, I was unsatisfied. I thought that it would be well to go back and test the woman with an iron bar. So I went back the fourth time, and at first I again found nothing amiss."

"The cellar walls all seemed sound, but, striking about with the iron bar, I struck a loose brick, and it fell. Immediately a terrible stench met my nostrils, and then I knew something was wrong. I then began to tear away the loose bricks, and underneath I found a mass of human flesh, eaten away with lime. Not a bone was found, and I believe the murderer, with his medical skill, separated them from the flesh and threw them into a canal not far from the house."

A rumor reached here to-night from Montreal that Crippen had committed suicide on the Montrose. This caused considerable uneasiness, although it came absolutely without foundation. A number of wireless messages inquiring about the truth of the report were addressed to the Montrose, but they were stacked up beside the operator to-night, waiting to be sent.

NEW WHEAT KING CLEARS MILLION

(Continued From First Page.)

In stocks occurred, the Eastern houses trading on after Waterman were obliged to sell out to get available profits.

Farmers also made money by the corner, angling for the "elevator combine." Indiana producers, from whom a great amount of grain was purchased by the shorts, received higher prices for their grain owing to the competition.

Investigation by the directors of the Board of Trade of conditions surrounding the manipulation of breadstuffs was promised by President A. S. White to-day. The opinion prevails among brokers that the corner in July wheat is only the forerunner of probable big attempts to corner September wheat.

Investigation by the directors of the Board of Trade of conditions surrounding the manipulation of breadstuffs was promised by President A. S. White to-day. Brokers, however, claim that corners will not be prohibited, and make the argument that if such a rule is placed in force, the producers will be the sufferers, as competition for grain will be abolished.

Shows His Earmarks.

While Mr. Waterman was in Chicago to-day he was not without knowledge that he had engineered the corner. Grain men claim, however, that the action of the wheat during the past few weeks, and especially to-day, shows earmarks of the Albany speculator.

It is claimed that if he had seen fit he could have forced the price of wheat to a much higher figure. A prominent broker said when describing the corner: Mr. Waterman, while a dyed-in-the-wool bull, has never

been inclined to squeeze the last dollar from buyers.

NEW BREAD TRUST READY TO LAUNCH

Suspected of Having Close Relations With Original Combine.

[Special to The Times-Dispatch.] New York, July 30.—A new bread trust, suspected of having close relations with the other bread trust, known as the National Biscuit Company, will be launched Monday under the laws of Delaware. The name of the new concern will be the Federal Biscuits Company. It is said that the capitalization will be \$30,000,000, divided into \$18,000,000 of preferred and \$12,000,000 of common stock.

Hartwell B. Grubbs, president of the Consumers' Biscuit Company, said to be a subsidiary of the National, will head the concern. A meeting of the directors will be held in Wilmington, Del., Monday, when announcement of the details will be made.

George B. Brown, of Wilmington, is counsel for the company. The company will occupy ten floors of the large new building at Hudson and Franklin streets, the centre of the wholesale grocery district.

It is stated that eighty of the largest establishments in the country engaged in the manufacture of crackers, biscuits, etc., that had not been taken into the original trust, have been bought by the new concern on the terms that characterize these transactions. The largest in this district is the Wallace Company, of Bridgeport, Conn. Four or five of the important companies in New York City are said to have been absorbed also.

To Educate Public.

A novel feature of the new trust will be its establishment of a "literary bureau" to educate the public of the United States to eat more of the products of biscuit factories and less of bakers' bread. In proof of this, the trust already has been organized with this object in view.

The contention will be made that the products of the biscuit factories, including nearly 100 varieties, are more wholesome than either homemade or bakers' bread. In proof of this, the trust already has been organized with this object in view.

Crime Was Brutal.

Louisville, Ky., July 30.—Alma Kellner, the eight-year-old daughter of Mr. and Mrs. Fred Kellner, and niece of Frank Fehr, millionaire brewer, disappeared from her home in the city on the morning of December 8 last to attend mass at St. John's Church, about three blocks away. She was not seen again, until her mutilated body was found in the basement of St. John's Parish School Building on May 30. There was every indication that the child had been murdered and her body hidden in an effort to conceal the crime.

Evidence found around the school building and among the effects of the slain child pointed to a man of suspicion toward him, and when an effort was made to capture him it was discovered he had fled the city. His wife was taken in custody, but was dismissed after being examined.

Evidence pointing to Wendling was wrung from his wife, and the dead child's relatives and the authorities offered \$6,000 for his capture.

Wendling is about twenty-five years of age, and is supposed to be a son of a good family. According to his wife, Wendling left Louisville on January 24.

When the girl first disappeared it was thought she had been kidnapped, and search was instituted extending to all parts of the United States and Canada.

FELL FROM STREET CAR

Inmate of Soldiers' Home Injured at Eighth and Grace Streets.

James A. Harrison, eighty-five years old, an inmate of the Soldiers' Home here, fell from a street car at Eighth and Grace Streets yesterday morning and dislocated his hip. The veteran intended to get off the car at Eighth and Broad Streets, but forgot to do so. He attempted, it is said, to get off at the crossing on Grace Street while the car was still in motion. He was attended by an ambulance surgeon and was removed to the Soldiers' Home.

Mrs. N. E. Foster, of Atlanta, Ga., fell from a car at Fourth and Broad Streets yesterday afternoon. She was slightly injured in the head and face. She was treated by an ambulance surgeon and left.

AROUND THE HOTELS

"The story printed a few days ago in Richmond and sent out to other papers about a girl being bitten by a snake which had lodged in her 'rat,' reminds me of an occurrence in a Middle Western city," said a visitor at a local hotel last night.

On being assured that the rat-snake story was a fake, the visitor said: "Well, so was mine."

"A few days before this thing happened I read in a Chicago paper about how a deadly tarantula had been discovered in a bunch of bananas. The terrific struggle through which the storekeeper went before the insect was finally dispatched were detailed most graphically. It was a good story."

"Well, I got into this little Middle Western city bought a paper, and read the story all over again, applied to a local dealer. Of course, it was a filler, and was not intended to hurt any one. But I stayed in that town a week, and during that time I did not see a customer who was passing by. I talked with him about it, and he said the tarantula story had

been used successfully for over 57 years in cases of Bloating, Heartburn, Headache, Biliousness, Sour Stomach, Indigestion, Cramps, Diarrhoea, Colic, Flatulence, Pever and Ague. It is the best for you. Try a bottle to-day. All drug
